so this was done then the two thought at the time when the first three interested announced themselves

ascende said... hey folks , that is amazing
perma reaffirming, ya we are so ready to leave into the wild, thank you for continuing here the experiments
ascende... you probably will invent new ways too to advance cell evolutions
now the three were asking all kind of questions
like ... when can we come ... with ascende saying
as soon as you can, i can barely wait to feel subtropic sun on my body, it will be like having dessert to every meal
perma said , do not worry about the money, we have a steady inflow of donations now as for the research part of the android crowdfunding 5 year project
the three, nilani, mandu and luoma were living allready together in sao paolo in a sharing loving way so they were allready at a heightened group understanding
since about two weeks they were donating some hundreds toward ascende and perma movie live streaming from their appartement
they were themselves owner of a house in sao paolo and had good friends what would look after it
eventually thez could install some petri dishes cameras and fellow cell evolution searchers there
wonderfull idea, ascende commented on their introduction
i bought this flat for a million with 2 millions i got donated from an admirer of my art
as of today i donate this flat onto the group effort with us being 5 now who have an equal share on both the flat as well as with all what is in it
perma agreed and added, all our findings go to the public domain anyway, and shall be used for the good of this planet... but there is all the installations in here what ascende probably spent another 200 thousand for
ascende ... and i have an account with around 300 thousands on what is solely dedicated to pay fees the city asks like property tax, water, electricity etc....
nilani ... oh i do think we will buy some solar panels with our own money when we move in
luoma... and this water recycling system of yours looks quite sophisticated from what i see from the cameras you set online this morning, i have some ideas how i could enhance on it
mandu... but yes, i understand your bold investment into the android project, it will greatly bring firmness into the projects perception
perma... you ascende saying that all who live in an appartement or house connected to the cell evolution research for android for all crowdfunding ... all involved persons will have an equal property share on all the material belongings to the project
ascende... yes, like, we two agree that we want to share it with nilani, mundu and luoma, if they for example donate their house to the pool too and have friends who want to do similar research at the sao paolo house too, we five would have to agree on accepting the new ones
perma... i like this, i will also chip in with the perma place i built myself on the canary islands
i bought that for 30 thousands what i got donated from my parents for my 21 birthday
mundu... what you say nilani and luoma, shall we make the commitment too ?
nilani... how trustfull of ascende to know us with videochat some hours and share his one million appartement property with us
perma... we both did share it with you three as ascende has donated me half of his before and i have shared mine with him completly
ascende... yes, i probably forgot to tell you, kind of probably patriarchic crum in my brain thinking of my one million investment against your 30 thousand, stupid, i am sorry
perma... not that problematic, please do not worry about it, i believe you are growing strong on the gender neutral avenue
luoma... i want to give my third of our house
nilani... me too
mundu... so it shall be
fantastic, perma said, look at us ...5 people having three places and sharing it completly
luoma... as i look at it, there is now space for 12 people, making 7 places free now
ascende... i believe more... with here well 7 people to the max
mundu ...and at our place max 5 as the house is about 200 m2....
perma....with at the permahut probably four to five
depending on how near to each other we can live on 30square meters

continuing text 7 on a piece of paper with pen

---

nilani… and you know what ?
as my very personal contribution i will donate myself a shorter name… nila … i am

mundu… well well that is a line of thinking …
luoma… nila… lovely
nila… thank you, i was considering to change my name for a while now and it feels
very good to do it now when we are in this sharing frenzy
ascende laughing… frenzy as when one is excited about tasty food and gobbels it all down
as it were the first and last meal one would have ? that how you mean ?
nila… exactly… but i think it is a whollistic frenzy, sustainable and… by the good spirit…the world
can certainly digest some sharing frenzy as with our history the last several thousands of years of
stealing of each other or excluding a part of the population from the collectivly amassed wealth
